PROFILE

BSIT Graduate with a major in Database, proficient in JavaScript, ReactJS, PHP, and MySQL. Experienced in developing user-friendly interfaces and optimizing web performance through technical internships and academic projects. Strong background in high-volume client communication and technical troubleshooting.

EDUCATION

Bachelor of Science in Information Technology, Major in Database
Mindanao State University - Iligan Institute of Technology

Aug, 2019 - July 2023

TECHNICAL SKILLS

Programming Languages: HTML/CSS/JavaScript, Java, Python, PHP

Database Management: MySQL

Tools: ReactJS, WordPress, Elementor Pro, CRM, Microsoft Office, Google Workspace

KEY PROJECTS

E - Hatag: Digitization of Blood Donor Cards for Improved Accessibility

- **Tech Stack:** PHP, MySQL, JavaScript, HTML/CSS
- **System Architecture:** Developed a web-based management system to digitize physical donor records, improving data retrieval speed and accessibility.
- **Feature Engineering:** Engineered a peer-to-peer assistance module allowing patients to request help from potential donors in real-time.
- **Database Management:** Designed and implemented an administrative dashboard for Philippine Red Cross staff to track blood inventory levels and manage donor records via MySQL.
- **Role-Based Access Control (RBAC):** Integrated multi-level authentication for Admin, Employee, and Donor roles to ensure data security and integrity.
